Our Mission

Bay City ISD shall provide students and members of the community with a learning environment which encourages personal thinking and reasoning skills enabling them to become thoughtful, productive, and self-fulfilled citizens.

Bay City Junior High Administrators

Principal---Rosemarie Cumings

Associate Principal—Steven Chambers

Assistant Principal— Dr. Krystal Christianson

Assistant Principal- Yamilet Arroyo

Academic Dean- Shane Johnston

Bay City Junior High School Counselors

Crystal Hurta—A-L

Shelby Hood –M-Z

1. BCISD will provide quality teaching and rigorous learning in academic and vocational areas and an emphasis on proficiency in reading, writing, math, science and social studies.
2. BCISD will provide a safe and disciplined environment, which is conducive to learning.
3. BCISD will place continued emphasis on providing students with highly qualified teachers and varied ethnic role models.
4. BCISD will insure fiscal responsibility by prudent application of all district funds
5. BCISD will provide facilities that will support a positive learning environment for students.

General Information

Students at Bay City Junior High attend class for eight periods. The academic classes at BCJH include courses required by the Texas Education Agency using the Texas Essential Knowledge and Skills (TEKS) for all students.

Counselors will assist your child in planning the academic program each year. This catalog lists required courses and describes approved elective courses for 6th, 7th, and 8th grade. Elective courses are limited; therefore, your child may not get their chosen elective. All students will pick up their colored paper schedules on the 1st day of school. 6th grade—South Gym, 7th grade—Cafeteria, 8th grade—North Gym.

Student Orientation will be held in mid-August for 6th grade and new students to BCJH only. The date and time will be posted on the school website and Facebook. Students will meet the principals, counselors, and teachers.

National Junior Honor Society is chosen at the end of the **7th grade year**. Each student's academic and disciplinary data will be reviewed to determine eligibility. Students must have an overall academic average of 92 or higher to be considered along with good citizenship. Grades from core courses, electives, and PE/athletics are included in the overall average. Candidates will be invited to join the National Junior Honor Society.

Duke University Talent Identification Program identifies students in the 7th grade who obtained a score of the 95th percentile or higher on an approved standardized test. These students qualify to take the SAT or ACT. Further information may be obtained by your child's school counselor or at www.tip.duke.edu

Academic Eligibility Rules/UII states that a student will be suspended from participation in competition or public performance sponsored or sanctioned by the school district during the three week period following a grade report period in which a student receives a grade lower than 70.

Instructional Programs

Course offerings are comprehensive and cover the mandated Texas Essential Knowledge and Skills (TEKS) as mandated by the Texas Education Agency. Courses are offered as Academic or Pre-Advanced Placement. Students are encouraged to take courses at a level where they are challenged but can still perform successfully.

Academic courses are grade level TEKS, presented on a more concrete level while addressing critical thinking, problem solving and the development of oral and written communication skills.

Honors courses are taught at a faster pace and with more rigor than regular class. Honors courses challenge and enrich motivated gifted and talented students as well as high performing students to expand their education beyond the regular curriculum. Honors courses help prepare students for Advanced Placement and Dual Credit coursework in High School. Students must meet grade requirements and approaches grade level on STAAR assessments. Students must also make an 80 in the prior year course.

AVID (Advanced Via Individual Determination) is an academic elective course which prepares students for college readiness and success. This is a year-long course held during the school day. The AVID curriculum will empower students with academic skills, individual determination, and the social adaptability leading to college graduation. In AVID, students receive instruction that incorporates strategies focused on writing, inquiry, collaboration, organization, and reading support academic growth. The selection process focuses on students with academic potential, who would benefit from support to improve their academic record and begin college preparation. While student participation is voluntary, students must meet the AVID criteria, apply, and be accepted into the program, and be invited by the AVID site team.

High School Credit courses are high school classes that a student may receive High School Credit toward graduation. These classes will count toward class rank and Grade Point Average in High School. Pre-requisites are listed next to the High School Credit Courses.

6th GRADE COURSE OFFERINGS

REQUIRED CLASSES

1. English Language Arts and Reading (Block Class)
2. English Language Arts and Reading (Block Class)
3. Math
4. Science
5. Social Studies
6. Physical Education
7. College Readiness (1 semester)/ Touch Data Systems/Technology Applications (**1 semester/ ½ or .5 High School Credit**)
