

COUNSELING ON POSTSECONDARY EDUCATION

What is it?

Postsecondary education counseling will provide students with an opportunity to learn more about postsecondary settings, programs, requirements, and the skills necessary to be successful in these settings.

What are examples?

Postsecondary education counseling may include information about universities, community colleges, comprehensive transition programs, trade/technical schools, military, and postsecondary programs for students with intellectual and developmental disabilities.

TRANSITION PLANNING CONNECTIONS

Age-Appropriate Transition Assessment

- What education or training-related transition assessments have been completed?
- What were the results?

Work-Based Learning Experiences

- What is the student's postsecondary education or training goal?

Counseling on Postsecondary Education

- What education-related activities will support the student's postsecondary education goal?
- How can vocational rehabilitation support the postsecondary education goal?
- Will the student benefit from Pre-ETS?
- Would postsecondary education counseling be a beneficial Pre-ETS service?
