

WORKPLACE READINESS TRAINING

What is workplace readiness training?

Workplace readiness training will help students with interpersonal and intrapersonal skills needed for being successful in the workplace.

What are examples?

Workplace readiness training may include decision-making, problem-solving, professionalism, attitude, conflict resolution, time management, money management, and using technology.

TRANSITION PLANNING CONNECTIONS

Age-Appropriate Transition Assessment

- What employment-related transition assessments have been completed?
- What were the results?

Work-Based Learning Experiences

- What is the student's postsecondary employment goal?

Coordinated Set of Activities

- What workplace readiness activities will support the student's postsecondary employment goal?
- How can vocational rehabilitation support the postsecondary employment goal?
- Will the student benefit from Pre-ETS?
- Would workplace readiness training be a beneficial Pre-ETS service?
